

**Performance Tuning Tips
Compiled by Critical Path Software Inc.**

www.cpsigroup.com

**All of these SMS Tuning TIPS were submitted
from various sources and should be tested prior to use.**

SMS TUNING TIPS

- Additional Great SMS Tuning Tips can be found at:
www.lascon.co.uk/d002003.htm

**Please remember that SMS tuning is an art and takes a lot of experience.
ALWAYS TEST all changes prior to implementing into production.**

Send in your SMS Tuning TIPS and we will include them here.

**Do you have a SMS TUNING TIP that we can put here?
Please send us an e-mail. It will help others.**

Send to: Ralph@cpsigroup.com

**Additional TIPS are posted on
<http://www.linkedin.com/pub/ralph-bertrum/b/24a/471>**

If you send your e-mail address I will send them to you every time they are updated. The JCL, COBOL, DB2, CICS, VSAM, SMS, and TSO TIPS will all be sent. All of the TIPS have been sent in from donors so please test them. If you ever have a performance problem give me a call. We do a free no charge no obligation analysis.

**Very Best Regards,
Ralph E. Bertrum
